Sri Lanka CERT (Pvt.) Ltd

Procurement of an Individual Consultant Service for Preparation of Documentation of the Cybersecurity Capability Maturity Model (CMM) for NCSOC
CERT/GOSL/CON/IC/2026/10

The Sri Lanka CERT has established the National Cyber Security Operations Centre (NCSOC), which is now operational and serves as the central hub for real-time cybersecurity monitoring, threat intelligence sharing and incident response coordination for critical national information infrastructure, government institutions and other key stakeholders.

Under a previous consultancy assignment, the NCSOC has already developed its technical standards, policies, cyber security playbooks, operational guidelines and an implementation roadmap, aligned with ISO/IEC 27001, ISO/IEC 27035, the NIST Cybersecurity Framework and MITRE ATT&CK.

As the next step, the NCSOC intends to measure and improve the maturity of its operations using the SOC Capability Maturity Model (SOC-CMM). SOC-CMM assesses a SOC across five domains – Business, People, Process, Technology and Services. Several documents required as evidence under SOC-CMM are not covered by the existing NCSOC documentation set.

This assignment is therefore designed to engage a qualified individual consultant to prepare only those additional documents needed to close the SOC-CMM documentation gaps, building on the documents the NCSOC already holds. Given the limited budget and timeframe, the assignment focuses on a defined, priority set of documents listed in Section 3. The duration of the design assignment is 5 weeks.

Sri Lanka CERT intends to hire an individual consultant for this assignment. Interested and Eligible Individual Consultants may submit their responses (CV, proposal and Eligible proof documents) as specified in the Terms of Reference. The response should be submitted electronically to procurement@cert.gov.lk or by hand delivery or post to the Chief Executive Officer (Actg.), Sri Lanka CERT (Pvt.) Ltd, Room: 4-112, BMICH, Colombo 7, to be received on or before **09th November 2026, 3.00 PM.**

The envelope containing the response should be marked “Procurement of an Individual Consultant Service for Preparation of Documentation of the Cybersecurity Capability Maturity Model (CMM) for NCSOC”. The detailed “Terms of Reference (TOR)” are available on the procurement tab of the https://www.cert.gov.lk/ website.
